DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 9-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Yoshida et al. (U. S. Patent 4,964,734).

Regarding claims 9-12, Yoshida discloses all the claimed structural limitations of a sample processing apparatus 20, having a main unit, a recording-display device 17, a calculator 15, figure 1, column 3, lines 50⁺. It is to be noted that, Yoshida meets all the structural limitation, the functional recitation (**for, which**) that has not been given patentable weight because it is narrative in form. In order to be given patentable weight, a functional recitation must be expressed as a "means" for performing the specified function, as set forth in 35 USC § 112, 6th paragraph, and must be supported by recitation in the claim of sufficient structure to warrant the presence of the functional language. *In re Fuller*, 1929 C.D. 172; 388 O.G. 279.

Regarding claims 13-14, Yoshida does not positively disclose the program for a sample processing apparatus, it is inherent property of Yoshida.
